

CAPTAIN DREYFUS NOW A FREE MAN

Released From Prison This Morning.

FIVE YEARS OF SOLITARY CONFINEMENT HAS ENDED.

At an Early Hour a Carriage Was Driven to the Military Prison, in Which Was the Provost General and Perfect Police—Ex Prisoner Was Swiftly Driven Away—Not a Word Exchanged During the Scene—Nothing Can Be Learned as to His Destination.

Rennes, Sept. 20.—[Special]—Captain Dreyfus has at last been released from prison and his five years of solitary confinement has ended.

Shortly before 3 o'clock this morning, when all was quiet and the streets deserted, a carriage was driven to the entrance of the military prison, where Dreyfus had been confined. In the carriage were the provost general and perfect police.

A moment after the arrival of the carriage, the prison doors swung open and a file of guards came out, quickly followed by Dreyfus, who saluted and then stepped into the carriage, which was swiftly driven away. Not a word was exchanged during this scene.

The carriage left the town by a south road and continued to Vern, a village about eight miles to the southeast, where Dreyfus boarded a train in the direction of Nantes.

Nothing can be learned as to Dreyfus' destination, as only the authorities and ex-prisoner's family are in the secret and they positively refuse to talk.

To the Interior of France. Rennes, Sept. 20.—[Special]—Mme. Dreyfus left here at noon to rejoin her husband, Jacques Hadamard, a relative of Mme. Dreyfus, said that Dreyfus was bound for somewhere in the interior of France and was accompanied by his brother Mathieu.

Not Restored to Rank. Paris, Sept. 20.—Just that Dreyfus is pardoned—that is all Paris knows or is likely to know until it suits the cautious policy of the government to let the details out.

It is thoroughly understood that his pardon does not relieve him from the stigma of dishonor to his name affixed by the court-martial and that he remains outside of the pale of the army with no wiping out of his record of dismissal and degradation.

One of the conditions of the cabinet's action in voting a pardon was that he was to remain silent forever.

It is said that not only has his liberation been definitely settled, but that the formal decree of pardon has been signed by President Loubet, and is being held in reserve until the effect of the action is observed.

Mathieu Dreyfus says the family is nearly ruined and it will take at least two years to put its affairs into shape.

Comments of the Press. Paris, Sept. 20.—The Presse says: "Dreyfus withdrew his appeal today. This was the 'various formalities' mentioned in the official communication as 'remaining to be fulfilled' before the pardon would be signed. The traitor will now be set free and be able to give lectures in England and America on the secrets of the iron safe in the état-major bureaux."

The afternoon newspapers variously comment on the pardon. The Patrie says it reserves its opinion for the present. The Paris expresses delight at the action of the government.

The Gazette de France declares that the pardon tears up the judgment of the court-martial, although President Loubet solemnly promised that it would be respected.

The Droits de l'Homme declares that the decision honors the government, which restores a martyr to his family. It adds that the cabinet recognizes Dreyfus' innocence, which is already patent to the whole world, and will give him a chance to judicially prove this innocence.

The Croix avers that the pardon is a slap in the face of the court-martial, and an insult to the army. It declares that it is the final act of a moribund government.

The Presse declares that the pardon is Prime Minister Waldeck-Rousseau's revenge for the defeat he received at Rennes.

The République Française says that the corollary of the pardon must be the suppression of the attacks against the army, otherwise the whole country will rise against the government.

The news that Dreyfus was to be set at liberty created no commotion here.

Accused of Robbing a Bank. Detroit, Mich., Sept. 20.—Fred E. Harvey, until last Friday considered a clerk of the Preston National bank, was locked up on a charge of embezzlement. He has confessed that he robbed the bank by a system of false entries. The amount of his peculations is said to be about \$11,000. Harvey had been employed in the bank eleven years. He is married and 35 years of age.

RULES ON THE BLAND DOLLAR.

Michigan Supreme Bench Settles Suit Over Legal Tender.

Lansing, Mich., Sept. 20.—During the height of the discussion of the money question in 1897, Chairman Fred A. Baker of the democratic union silver state committee sought to secure from the supreme court of this state, an opinion as to the constitutionality of the Bland-Allison act of 1878. He declined to accept the dollars made legal tender by that act in satisfaction of a mortgage he held on property purchased by Stephen Baldwin, a Detroit capitalist.

When the case was heard Baker argued that the United States supreme court's opinion was dictum, and, therefore, not binding. Tuesday the Michigan court handed down a brief opinion, in which it declines to discuss the question, saying that it was finally settled by the federal court, the language of whose opinion it considers clear and unmistakable.

Big Blaze in Hegewisch.

Chicago, Sept. 20.—The planing mill of the Illinois Car and Equipment company, at Hegewisch, was destroyed by fire shortly after midnight this morning, and for a time the entire plant of the company was threatened with destruction by the flames. The loss, it is estimated, will reach \$150,000, the greater part of which is on the machinery in the planing mill.

Ardmore, I. T., Sept. 20.—The Chickasaw legislature, in session at Tishomingo, passed a bill raising the fee for marriage licenses from \$50 to \$1,000. The measure is aimed at white men who would marry into the tribe to profit by the annuities and lease money drawn by women Chickasaws.

Hen and Terrier.

A. W. Giehm of Sioux City, Iowa, recently purchased a sitting of eggs and placed them under an old hen in his hen-house. In the same hen-house lives a terrier. A few days ago the animal gave birth to eight white puppies, and they were placed in a box in the corner. To the astonishment of the owner, his hen left her thirteen eggs and placed herself in full charge of the puppies. She has been cuddling the tiny pups under her wings and will allow no one to take them away without a great fight. The mother of the pups is on friendly relations with the hen, it would seem, for she lies on the floor and seems to have no objection to the foster mother. In the meantime the expensive sitting of eggs spoiled.

ARTHUR GODDARD DECLARED INSANE

MAN WHO COMMITTED MURDER AT DAWSON CITY.

Chippewa Falls, Wis., Sept. 20.—At present the Van Akins are somewhat scattered as Carolyn has returned to Oberlin, Ohio, to the Conservatory of music; Elizabeth to Oregon, Wis.; Katherine is visiting in Beloit; Dwight is on the C. & N. W. road between here and Green Bay; Will is at Anderson, Ind., in Y. M. C. A. work. Having been under the doctor's care for a few days, Mrs. Van Akin has gone to see him, and will also visit Mount Vernon, Ohio, her former home, before returning.

Chippewa Falls, Wis., Sept. 20.—News has been received from Dawson City that the trial of Arthur Goddard, on the charge of killing James Prather, took place September 16, and that the jury gave a verdict of insanity. Two physicians testified that the young man is insane. Goddard will be removed to the asylum at New Westminster, B. C., where he will be kept until the governor-general of Canada gives his consent to his removal, which he has been asked to do. It is ultimately hoped that Goddard can be brought to Wisconsin for treatment.

Protest to Brown's Figures.

Madison, Wis., Sept. 20.—A delegation of about fifteen residents and officials of Racine and Kenosha appeared before Secretary of State Froehlich and State Treasurer Davidson of the State Board of Equalization, yesterday afternoon to make objection to the statements in the pamphlet filed with the board by Tax Commissioner Brown, of Milwaukee, relative to the assessment of those cities. City Atty. Heck of Racine and Asst. City Atty. James Cavanaugh of Kenosha, were spokesmen for the delegation, and they cited facts and figures to show that the statements in Mr. Brown's pamphlet were wrong. They claimed their cities had a more just system of assessment than Milwaukee, and that instead of the power being vested in one man, as in the metropolis, a board of three passes on the assessments. Tax Commissioner Brown, who with his assistant, Mr. Knell, and Assessor T. F. Daly, was present, replied to their arguments. Michael Griffin, president of the State Tax commission, sat with the board.

REV. CHAS. W. TURNER QUILTS THE MINISTRY

SENSATION FOR METHODISTS AT BARABOO CONFERENCE.

A Black River Falls Divine Failed to Appear Before the Congregation Last Sunday—Was Quietly Married at Stevens Point—Makes It Unnecessary to Take up His Case

Baraboo, Wis., Sept. 20.—[Special]—When the ministers arrived to attend the annual conference of the Methodist Episcopal church here, there was a sensation in store for them, in that one of their number had severed himself from the conference and church.

Rev. Charles W. Turner did not appear before his congregation at Black River Falls last Sunday, and it was soon learned that he had quietly married to a daughter of W. H. Richards of that city.

He had two churches at Black River Falls, and Miss Richards was a member of one of them.

Mr. Turner sent in his final report and gave notice that he had left the ministry.

This makes it unnecessary for the conference to take up his case.

FORECAST OF WEATHER

Chicago, Sept. 20.—[Special]—Forecast for Wisconsin:

Fair tonight and Thursday. Warmer.

ADMINISTRATION IS REJOICED.

Cabinet Officers Regard the Offer of a Conference as a Good Sign.

Washington, Sept. 20.—The hopes of the administration are buoyed up by the news from the Philippines. A cablegram from Gen. Otis, stating that a proposition had been made by the Filipinos to surrender the American prisoners, and that they had requested a conference with Gen. Otis, is interpreted as an indication that Aguinaldo is weakening. The withdrawal of the Philippine commission was notice to the insurgents that the administration had determined to wage an aggressive campaign, that military power was to displace the negotiations which the commission had entered upon in the hope of securing an understanding. Aguinaldo now has Gen. Otis to deal with, and he knows that the United States is raising an army for the purpose of sweeping the island of Luzon from coast to coast if necessary to secure peace.

Unless the Filipinos have strengthened their intrenchments, replenished their ammunition, recruited their ranks and are determined to continue the warfare by guerrilla tactics, wisdom would dictate a surrender now, when terms advantageous to the insurgents may be secured. The administration is awaiting with anxiety the outcome of the conference, which has been granted the insurgents, and it is hoped that they have recognized the uselessness of further opposition and are prepared to surrender and restore peace.

Work of Enlistment.

Officials of the war department are gratified over the phenomenal progress which is being made in recruiting for the ten volunteer regiments. The record shows that 756 men were enlisted Monday, the banner day, making a total of 7,441 men.

Approve Otis' Action.

The war department has approved the action of Gen. Otis in refusing to allow Spanish ships to go to ports controlled by the insurgents to take away Spanish prisoners.

FEVER SITUATION SERIOUS.

Epidemic at Key West Continues to Spread Despite Precautions.

Washington, Sept. 20.—The yellow fever situation at Key West is regarded as grave. Since the first case was reported, about three weeks ago, the epidemic has been steadily growing, until there are almost 400 cases. New cases are appearing at the rate of about thirty a day, but the mortality is low. As Key West is situated below the first line the epidemic will have to run its course. Thirty-one new cases were reported there Tuesday, and one death.

Two new cases of fever were reported to the surgeon-general from New Orleans Tuesday. Surg. Gen. Sternberg has received a dispatch from Havana saying that the yellow fever outbreak is fully under control. The number of cases in all the hospitals in Havana are nine soldiers and eleven civilians. There have been no new cases at Cabañas garrison since the 9th.

"The union was sort of run down," said Mr. Whitaker this morning, "on account of the disappearance of the secretary and treasurer with the organization's cash, which of course temporarily put a damper on the union's interest. Matters will work out all right, however." When asked as to the condition of labor interests about the state, Mr. Whitaker said things were very quiet.

KELLY HAS IMPORTANT WORK

He then goes to Louisville, Kentucky, where he will drive in a race with a \$5,000 purse. From Louisville Mr. Kelly goes to Lexington, Kentucky, where he has a horse in a race with a \$1,000 stake purse. Mrs. Kelly will accompany him to Kentucky.

Practical Cleverness.

A story was told not long ago to an audience at the United Service Institute, London, which shows that a little native wit will sometimes solve a problem which has proved too much for technical training. During the second Burmese war the British troops endeavored to carry off to Calcutta as a trophy a big bell, weighing more than forty tons. To transport such a heavy burden was troublesome, but the engineers managed to get it as far as the River Ravi. In trying to put it on shipboard, however, the tackle slipped and the bell rolled over and fell into the water. The engineers set to work, and by the use of a little common sense accomplished the task that had proved too much for the trained engineers. They simply encased the upper part of the bell in a wooden structure, so as to convert its external form into that of a cylinder. Then by means of ropes it was found quite possible to roll it up the river bank on to dry land.

Sure of a Place.

A gentleman of decided and highly cultivated musical tastes, wishing to change his residence, advertised for rooms in "a private family fond of music." The next mail brought him the following reply: "Dear Sir—I think we could accommodate you with rooms, and as for music, one of my daughters plays the parlor organ and guitar, another one plays the accordion and banjo; I play a cornet and fiddle, and my son the flute. We all sing, and if you are good at tenor singing, you would fit right in when we get to singing gospel hymns evenings, for none of us sing tenor; or if you play the base viol, we have one right in the house. If you want music as well as board, we could accommodate you, and there would be no extra charge for it."—Harper's Bazar.

SITUATION IS MORE ALARMING

Johannesburg in a Frenzied State.

UITLANDERS ARE ADVISED TO LEAVE THE CITY.

Such is the Warning by the Burgers, as They Say Martial Law Will Be Declared by the End of the Week—Boers Are Concentrating Near the Natal Frontier—Only Awaiting a Two Days' Rain to Begin Hostilities—England to Give Transvaal One More Opportunity.

Johannesburg, Sept. 20.—[Special]—The burghers advise those of their Uitlander friends who still remain here to leave the city, as they say martial law will be declared by the end of the week. Transvaal's Last Chance.

London, Sept. 20.—[Special]—It is stated that the cabinet at a meeting, will consider the entire Transvaal situation in the light of the Boers' last reply.

Then the final ultimatum will be formulated, with a time limit for reply, at the expiration of which hostilities will begin.

Boers Are in Readiness.

London, Sept. 20.—[Special]—A dispatch from Pietermaritzburg says: "The Boers are only awaiting two days' rain in order to begin hostilities." The dispatch adds that the Boers are concentrating near the Natal frontier with the express intention of seizing Laings Neck, Majuba and New Castle, as soon as England sends its ultimatum.

Officers Are Confering.

Pretoria, Sept. 20.—[Special]—A number of officers of Orange Free State are here. It is stated that they are confering constantly with the Boer officers regarding the Transvaal frontier defenses and a possible raid into Natal.

London, Sept. 20.—The lull in the Transvaal crisis gives opportunity for the continuance of ineffectual negotiations. The government of the Netherlands is privately exerting its influence in favor of a pacific solution, and it is understood that President Kruger, through Dr. Leyds, the plenipotentiary of the South African republic to the European governments, has unofficially approached three powers with a view to their intervention.

According to a special dispatch from Rome, President Kruger has wired King Humbert invoking the intervention of Italy.

A curious rumor is spreading in the lower ranks of the army that Great Britain will be involved with Afghanistan, as well as the Transvaal. The correspondent of the Daily Mail at Pietermaritzburg, Natal, telegraphs that the military authorities there have received warning from Johannesburg that the Boers have purchased considerable quantities of cyanide of potassium for the purpose of poisoning the streams in the Transvaal likely to be used by British troops.

Pretoria, Sept. 20.—The reports received here through unofficial sources that Great Britain contemplates proposing a new convention with disarmament, though discredited officially, have created the greatest indignation. The burghers say they would rather die than be thus reduced to the status of white Kafirs. Members of the government declare that, if this report be a real reflex of Great Britain's intentions, nothing will avert war.

BRITISH CABINET COUNCIL CALLED

Ministers to Meet on Friday—Opinion at Cape Town Divided.

London, Sept. 20.—Conferences were held between Chamberlain and Salisbury at the foreign office Tuesday, with the result that a cabinet council is announced for Friday. The official summons is not yet issued, but there is time enough to summon the ministers by telegraph. The situation is less acute, but is still pointing to war.

London papers are printing maps, which is ominous. The Times' Cape Town correspondent says the opinions of leading citizens there are divided between war and peace. Some think that the Boers will collapse at the last moment, and others among them some prominent in the Free State, think the burghers will have a walkover, and that Great Britain will be unable to cope with the Boers in their own country.

The Daily News says: "We have the highest authority for stating that all arrangements for sending a full army corps to south Africa are now complete, the last paper has been printed, and within twelve hours of the cabinet's deciding to use force an army corps would be getting ready for embarkation."

Looks for a Five Years' War.

Cape Town, Sept. 20.—A life long colonist and ex-moderator of the Dutch church estimates that the war will extend over five years. A powerful section of opinion holds that the United States should exert its influence with Great Britain to bring about arbitration in the interests of

# A PIONEER WISCONSIN EDUCATOR

Rev. William Clarke Whitford,  
President of Milton College for Forty-one Years.

One of the pioneer educators of Wisconsin is the Rev. William Clarke Whitford, president of Milton college, says the Milton correspondent of the Milwaukee Sentinel.

He became the head of the institution here in the summer of 1853, after having prepared himself by attendance upon district and select schools in the state of New York, and also at Brooklyn academy, De Ruyter institute, Union college in Schenectady in the same state and at Union Theological seminary, New York city. By the last three institutions he was graduated prior to 1857, and in the first two, in an academy at Scholton, N. Y., in the old academy at Milton, and with private pupils he gained a considerable experience in teaching and management.

Before taking charge here the institution had been in operation fourteen years. The founders were anxious that it should bring the most thorough and broad culture within its power, to the young people in its immediate vicinity, and to those it should attract from remote localities. Only teachers who had secured a college education or what was equivalent to it, were employed from the beginning. Prof. Jonathan Allen, late president of Alfred university, New York, was one of its principals. Prof. Ambrose C. Spicer, now of Battle Creek, Mich., was another one. He was an early president of the Wisconsin State Teachers' association, and was the originator of the measure by which the state formed teachers' classes in the high graded schools and the colleges and university of Wisconsin, and added those classes by the distribution of a state fund. This movement resulted in the establishment of the present Normal school system of the state. The people of Milton have always been willing to foster the institution in their hands, even to the sacrifice of many personal comforts. They have exerted a powerful influence over young men and women in encouraging them to make the most of their opportunities and of themselves in their life's work.

From the start President Whitford had the valuable assistance of his brother, Prof. Albert Whitford, still in the college. During that time he has served also as principal of the former institution at De Ruyter, N. Y., and as professor of higher mathematics in the university at Alfred, N. Y. He first came to this place in 1854, and now fills successfully a professorship in Milton college. Other well known instructors who have held important positions here are Maj. S. S. Rockwood, the present secretary of the State Board of Normal Regents; Prof. N. C. Twining, former principal of High schools in this state and Illinois and now of Riverside, Cal.; O. M. Conover, once a professor in the Wisconsin university and afterwards the reporter of the supreme court of the state; Prof. George M. Guernsey, who became the principal of the academy at Platteville, Wis., where it was converted into a state Normal school; Prof. Edward Searing, once the state superintendent of public instruction of Wisconsin, and until his death this year, the president of the State Normal School of Mankato, Minn.; the Rev. Henry Doty Maxson, connected for several years with Markham academy in Milwaukee and afterward with the State Normal School at Whitewater, and the Rev. W. Francis Place, now of Francetown, N. H. Among the prominent women teachers have been the wives of Prof. Spicer, Prof. Albert Whitford, Major Rockwood, President Kenyon of Alfred university, and the Rev. Dr. J. W. Morton, Miss Mary F. Bailey, the sister of E. S. Bailey, dean of the Hahnemann Medical college of Chicago, taught for some years German and English. Miss Isabel R. Walker, an assistant in the high school at Wauwatosa, and Miss Eleanor M. Brown, now in Oxford, England, pursuing further studies in English literature.

Soon after entering upon the work in the college, President Whitford formed a valuable acquaintance with Prof. J. L. Pickard, then of Platteville, Col. John G. McMynn of Racine, Bishop Fallows, now of Chicago, A. J. Craig, deceased, then of Palmyra, all of whom became state superintendents of public instruction of Wisconsin.

A helpful advisor was Prof. Ezra Carr,

## A "WEARY WILLIE"

### HURT LAST NIGHT

#### JUMPED FROM A MOVING TRAIN AT MONTEREY.

Suffers a Fracture of Small Bone in Left Leg—Says His Name is William Walsh of Chicago—Spent the Night in Lock-Up—Goes to Poor Farm—Another Accident.

A "Weary Willie" of Chicago fame met with an accident near the Monterey bridge last evening, which resulted in a forced "rest" in the city lock-up last night. The name of this unfortunate person is William Walsh. Although the weather was a trifle too chilly for such a journey, he had been taking a ride on an observation car, the night being a moonlight one. He evidently became moon-eyed, for in an attempt to alight on the bank near the aforesaid bridge, his pedal extremities became entangled with his head and he rolled down the steep embankment as if shot from a cannon. Mr. Hobo was found some time later by trappers, who assisted him to the depot. The fire patrol ambulance was summoned and the unfortunate man was conveyed to the lock-up and Dr. George W. Fifield, the company's physician, was called to alleviate his misery. The doctor's examination proved that the small bone of the left leg had been fractured, as well as being otherwise bruised in several places. The doctor administered to him wants and today Acting County Physician Fifield sent him to the county charitable institution.

#### Little Boy Injured.

Myron, the ten-year-old son of Mr. and Mrs. Edwin Tracy, who reside on North Jackson street, met with a very painful accident last evening. While at play, he accidentally fell on an iron railing, cutting a large gash in his head. The boy was taken to the office of Dr. Q. O. Sutherland and the physician found it necessary to put in several stitches. While the doctor says the injury is not at all serious, it was nevertheless very painful to the little boy.

## GOOD ILLUSTRATED LECTURE

Col. Geo. French's Subject Was "In Darkest America."

"In Darkest America" was the subject of an illustrated lecture given at Camp Salvation, west of the Y. M. C. A. building, last evening. The speaker was Col. George French and his remarks were listened to in rapt attention by the large audience present. The illustrations were shown by a magic lantern. Col. French's talk was mostly of the rescue work of the Salvationists among the slums of the large cities, with vivid and interesting illustrations. The faces of prominent leaders of the Salvation Army were also reproduced as well as scenes of the operations of the early work as compared with that of the present. The entertainment ended with a few humorous pictures.

The farewell meeting of the Northwestern Tent Brigade of the Salvation Army, will be held at the tent at 8 o'clock this evening. Tomorrow the members will go to Evansville, where they will pitch their tent and labor among the sinners and will remain there several weeks.

For the exhibition of the battle of El Caney at Rockford, Sept. 19th, 20th and 21st, the C. M. & St. Paul Ry. will sell tickets at reduced rates, good returning until Sept. 22nd. In addition to regular trains, a special train will leave Rockford for Janesville Sept. 19th, 20th and 21st at 11 p. m., giving an opportunity to witness the performance and return same evening.

THE BIG STORE 20, 22, 24, 26 ST. S. MAIN ST. JANESVILLE, WIS.

WE KEEP THE QUALITY UP

## FUR COLLARETTES

We are showing a large line. Bought ours early and paid small prices. Our garments are well made—reliable. Furs will be much worn this fall and winter. Early purchasing of furs means carefully selected skins.

Our stock is in excellent condition. We have a large assortment of fine fur garments and can save you money. Everything is advancing in price, but forehanded buying will save our customers many dollars and we can give them reliable furs at the same time.

## Astrachan Jackets.

Many fur jackets will be worn and already women are selecting them. We have jackets in stock that have advanced 3 to 4 dollars since we bought them. We offer a 24-inch jacket, box front, extra high collar, excellent lining—a thoroughly good Astrachan Jacket—at \$29.00.

## Fur Capes.

We make a specialty of fur capes. Our present assortment comprises a beautiful lot of them. Long, sensible capes, 27, 30 and 38-inch lengths, with sweeps of 110 and 115 inches in wool seal with opossum or marten collars. Monkey capes Electric seal with marten collar and edge. Astrachan Beaver and Novelties.

## Cloth Jackets.

A very complete line at figures that are small. Several numbers have advanced from 50c to \$2 since we bought ours. We will not attempt to go into details; this "ad." is more to let you know that we are ready for any demand.

## Cloth Capes, Plush Capes.

We are not caught napping. All kinds of outer garments are higher, because cloths have advanced and the great demand for garments gives employment to all the garment-workers in the large manufacturing centers and the scarcity of skilled labor sends up wages, as the experts can command a marked increase over summer prices. We placed our orders in May and June. Capes of plush or cloth will be very good and we show all the new things.

GOLF CAPES—By far the most attractive styles here. We make them to order also from beautiful Steam-Rugs. Like qualities in ready-made capes cost from \$5 to \$10 more than we get them up for.

McCall Bazar Patterns are well liked. All 10c and 15c, none higher.

## GRAND ARMY CHIEF.

Career of the Newly Elected Commander in War and Peace.

Colonel Albert Duane Shaw, the newly elected commander in chief of the Grand Army of the Republic, was born in Lyme, Jefferson county, N. Y., on Dec. 27, 1841. He was a student at the Belleville Union academy when the civil war broken out. Though not yet 20 years old, he at once enlisted in the Thirty-fifth New York volunteers. He took part in the battles of Rappahannock Station, Bull Run, Chantilly, South Mountain, Antietam, Fredericksburg and a number of smaller engagements.

After serving two years as a private and noncommissioned officer and mak-

ing a fine record as a faithful and gallant soldier he was appointed a special agent of the war department in the office of the provost marshal at Watertown, N. Y. There he remained until the close of the war, engaged in the work of raising troops.

The war over, Colonel Shaw entered St. Lawrence university, from which he was graduated in 1867. He served as a member of the state assembly from Jefferson county in 1867.

Colonel Shaw served as United States consul at Toronto for ten years and was then promoted to be consul at Manchester, England, where he remained until 1886.

On his return from England Colonel Shaw took up his residence at Watertown, where he has since lived. For several years he has been largely interested in the development of electric power at Niagara Falls. Since 1890 he has been president of the Canadian Niagara Power company, which has a hundred year lease of the water power within the Queen Victoria park.

Ever since 1880 Colonel Shaw has been a prominent member of the Grand Army of the Republic and has always been an earnest advocate of liberal pensions for veterans.

## OLYMPIA'S CHAPLAIN.

The Sky Pilot of Dewey's Flagship Is Ocean Born.

Ocean born and bred is the Rev. William H. I. Reaney, the Olympia's chaplain, who, during Admiral Dewey's stay in Rome, visited the pope and took back to the ship the papal benediction to the crew of the flagship. His father was the captain of an English steamship, and the baby who was destined to become the spiritual adviser of a heroic crew of American tars was born during one stormy voyage across the Atlantic.

In his youth Father Reaney made his home in Detroit, and his early training was at the Jesuit college in

that city. He afterward studied theology at St. Mary's seminary, Baltimore, and in 1888 was ordained to the priesthood by Cardinal Gibbons. During four years of parish work he ardently desired a chaplaincy in the navy; and then the combined influence of Cardinal Gibbons and Archbishop Ireland secured him the appointment. Before being assigned to Dewey's flagship on July 3, last year, he served successively on the Portsmouth, Charleston, Baltimore and Vermont. Father Reaney has such a temperament as one might expect in a lover of the sea—brisk, manly, fearless, affectionate. He is a stout patriot and a great favorite with the men and officers of Dewey's ship.

## The World's Coal Supply.

Of the 650,000,000 tons of coal which constitutes the entire world's supply, one-third is taken from the coal mines of the United States. The British Isles produce 218,000,000 tons, Germany 124,000,000, and the other European nations make up, in a few million tons each the rest. Spain contributes 20,000,000 to the sum total, which amount is not sufficient for even home consumption. China, though rich in natural deposits, mines but little of her coal because of her use of primitive methods. It is prophesied that the introduction of British mechanical appliances in Chinese fields will send up her coal supply at least 25 per cent.

Irving's latest success has started some of the English exquisites to wearing Robespierre hats, not imitations in pliant felt, but the real article in black and glossy silk. As yet they have to be made to order, but there is no telling how far the fashion may spread in the end.

## Declares Hoon Is a Forger.

Washington, Sept. 20.—A dispatch has been received at the war department regarding Private Lawrence D. Hoon of the Ninth infantry, who was the subject of a letter from Gov. Bushnell to President McKinley protesting against the sentence of the court martial at Manila. Gen. Otis says that the petition presented by Hoon had the names of several members of his company forged to it and it was for this crime he was convicted.

## McCoy Knocks Out O'Donnell.

New York, Sept. 20.—"Kid" McCoy had little difficulty in getting away with Steve O'Donnell in the arena of the Broadway Athletic club, Tuesday night. Despite O'Donnell's advantages of height, reach and weight, McCoy went to him gradually, without taking any careless liberties, and soon had his big adversary in trouble. McCoy knocked him out in the sixth round. O'Donnell never landed a good blow on McCoy.

## Little Pimples Turn to Cancer.

Cancer often results from an impurity in the blood, inherited from generations back. Few people are entirely free from some taint in the blood, and it is impossible to tell when it will break out in the form of dreaded Cancer. What has appeared to be a mere pimple or scratch has developed into the most malignant Cancer.

"I had a severe Cancer which was at first only a few blotches, that I thought would soon pass away. I was treated by several able physicians, but in spite of their efforts the Cancer spread until my condition became alarming. After many months of treatment and growing steadily worse, I decided to try S. S. S., which was so strongly recommended. The first bottle produced an improvement. I continued the medicine, and in four months the last little scab dropped off. Ten years have elapsed, and not a sign of the disease has returned."

It is dangerous to experiment with Cancer. The disease is beyond the skill of physicians. S. S. S. is the only cure, because it is the only remedy which goes deep enough to reach Cancer.

## GEN. WOOD ON CUBA.

Chicago Times-Herald—General Wood recommendations concerning the government of Cuba raise many serious questions, but they have the merit of seizing the bull by the horns. They do not propose General Lee's half-way scheme of protectorate, and they do not repeat the error of the Porto Rico commission in suggesting a wholly unprecedented exercise of civil authority by the executive to the exclusion of congress.

The main propositions are:  
That civil government should be subject to military regulation until the Cubans prove themselves fit to carry on a just and stable system.

The department commanders should have authority to suspend civil officials who are incompetent or guilty of misfeasance in office.

That separate courts and a distinct jurisdiction should be established for the trial of Americans.

These are justified by a review of the conditions that prevail in the island. It is charged that the native officials are corrupt and that they are efficient only so long as they have a strong authority above them. The inheritance of a bad Spanish system makes the operations of justice slow and unsatisfactory in the extreme, as the courts seem to have been established for the inconvenience of the people. In them Americans would be subjected to the jurisdiction of the capricious decisions of persons alien in race and sentiment.

Municipal administrations are conducted for the benefit of an officeholding class, the scheme of taxation is so faulty that it needs a thorough overhauling, the school system is defective, property interests are in bad shape and are complicated by the claims of the church.

Taken all in all the survey is very discouraging, and it is undoubtedly true that if American control is to be continued it should be as it is now, a military control. There is no alternative between this and complete independence, unless the Cubans desire annexation and are willing to submit to such a reconstruction as would put them on the same footing with American territories.

But what do they want? That is a question which seems as far from settlement as ever. If they seek annexation they may have it; if they demand independence they have the guaranty of our pledges. Until they make their choice known by a demonstration of popular will that is unmistakable, the present regime is the only practical one for them and for us.

## For Poor Children.

Richard Smith and his wife, of Philadelphia, will erect a building in that city designed to furnish shelter and play-rooms "for such children as may be brought there seeking recreation, by parents, guardians and other caretakers." The building is to be seventy-six by fifty-two feet, and is to contain a play-room for bad weather, reception and toilet rooms, a room with cots for tired or sick children, a dispensary with a trained nurse, a diet kitchen and a room with mattresses on the floor for babies to tumble about in.

## An Expert on Coins.

Count Cassini, the Russian ambassador at Washington, is an expert on coins. A friend recently showed him an old Egyptian piece "which was made so long ago that even the place of its creation was forgotten." "Yes," replied the count, sighing, "I must be getting pretty old, for I remember the Birmingham shop that turned them out at three shillings sixpence a dozen."

## HE MADE HIS START IN ROCK COUNTY

JUDGE O. T. WILLIAMS EARLY  
STRUGGLES AT MILTON.

Swept College Hall and Sawed Wood to Pay His Way Through College—Was a Classmate of Judge Dunwiddie—Named For Superior Bench by Governor Scofield.

Orrin T. Williams, who has been appointed Superior court judge at Milwaukee to succeed Judge Sutherland, got his early training in Rock county. Mr. Williams was born at Homer, Courtland county, N. Y., Oct. 19, 1845. When ten years old he came West with his parents, who settled in Whitewater in this state. His father died the same year. Mr. Williams lived in and about Rock county for ten years and during that time worked on a farm by the month, attending school in the winter. For two years he attended Milton college, and then entered Lawrence university and was graduated from the classical course in 1872. At Milton college Mr. Williams paid his way by sweeping the halls. He boarded himself and spent his spare time on Saturdays in sawing wood.

It had long been Mr. Williams' ambition to become a lawyer and after his graduation from Lawrence university he took charge of the high school at Fort Howard. He held the position for a year earning enough money to pay his debts and to attend the State University Law school at Madison. Mr. Williams finished his law course in 1874. Ex-Judge George H. Noyes, Judge J. M. Perales of Milwaukee, Judge Dunwiddie of Rock county and Glenway Maxon being members of his class. He began the practice of law in Fond du Lac in the office of Coleman & Spence. Afterwards he entered into partnership with Judge N. C. Giffin.

**Retired for Several Years**  
Ill health made it necessary for Mr. Williams to retire from active practice for several years, but in the fall of 1887, he opened an office in Milwaukee. The firm name was Williams & Bright, and later, Williams, Friend & Bright. Some time afterward Mr. Bright left to be come counsel for the "Soo" road. For the last five years Mr. Williams has been without a partner. He has offices in the New Insurance building. Among the more important cases won by Mr. Williams since going to Milwaukee was that relating to the drainage of Muskego lake. He took the case to the supreme court and the abandonment of the drainage project was ordered.

In politics Mr. Williams is a republican. In 1891 he represented the Fifteenth and Sixteenth wards, Milwaukee, in the legislature, being one of the thirty-two republicans in that body. He never held any other political office.

Mr. Williams was married in 1876 to Miss Anna E. North, daughter of Prof. Alexander North. They have three children. Mr. Williams' eldest son, Lynn A. Williams, will be graduated from the state university next year. He rowed stroke oar on the boat crew this year.

## THE WALWORTH COUNTY FAIR

Fifteen Thousand Persons Were Expected To Attend Today.

Monroe, Sept. 20—Today the gates of the Walworth county fair were formally opened and it is variously estimated the attendance on the first day exceeded 15,000 persons, while some say it reached 15,000. Yesterday, from long before sunrise, men were hard at work on the grounds, hurrying with all possible speed arranging their exhibits. The exhibit of farm machinery and implements, similar to everything else, is larger and every available piece of ground that is favorable for suitable display has been taken. A special feature will be the exhibition by the Racine Hatcher company. Three hundred eggs have been set and timed, and the last will break the shells on Friday, the closing day of the fair. Gambling will not be permitted this year and no intoxicating liquor will be sold. The stock sheds are filled and the cattle exhibit is equal and in many respects superior to the show at the state fair last week.

## THE CURES ARE MARVELOUS

Famous Bone-setter of America Works Wonders With Deformities.

Many people say it is an impossibility for any living being to perform the cures the famous Bone-setter of America is credited with, but these same people are not acquainted with the Bone-setter and have never, of course, seen his work. Those who have been fortunate enough to test his skill are loud in their praise of him and there are several persons in this city who have cause to give the Bone-setter all the credit possible. Think of being saved from almost a certain life of deformity, you would feel the same joy that thousands whom the Bone-setter has operated upon successfully do. He is not a cure all, the one specially alone he deals with exclusively. He has made anatomy almost a life study and is capable of coping with the most perplexing cases. The Bone-setter will be at the Grand Hotel Thursday, Friday and Saturday of this week and the cripple who does not see him will regret it.

Put the milk and the flour in the butter and flour together, add it to the milk and cook it till you have a smooth paste. ## SCHALLER WINS THE RICHARDSON TROPHY

DEFEATS JUDGE FIFIELD IN  
FINAL CONTEST.

Took Place Yesterday Afternoon at Buckleton Links—Was an Evenly Matched Game—Ladies Took a Hand in Day's Sport—Mrs. Jackson and Miss Baker Also Win Prizes

At Buckleton links yesterday afternoon, Charles Schaller defeated Judge C. L. Fifield in a close contest for the Richardson trophy, in fact, several times the contestants tied, which was the case at the end of eighteen holes, necessitating the playing of three additional holes in order to decide the superiority of the two players.

The thought of winning or losing the much sought after prize evidently, unstrung the nerves of Messrs. Schaller and Fifield, for neither played as well as usual, but the nervousness was evenly divided and the closeness made the contest an exciting and interesting one indeed.

The ladies played the first round in the contest for the Valentine trophy. A twelve hole course was played, in which three pairs entered. Following is the result:

	Out.	In.	Tot.	Hdp.	Net.
Lizzie Schickler	32	35	67	scratch	67
Harriet Carpenter	61	63	124	24	100
Mrs. W. A. Jackson	42	40	82	10	72
Alice Ruger	49	51	100	20	80
Jennie Baker	45	47	92	12	80
Mrs. Chas. Schaller	55	58	114	18	96

Miss Schickler, Mrs. Jackson and Miss Baker proved the victors, therefore will contest for the trophy. Mrs. Jackson won a pretty gold pin, given for the best score made yesterday, Miss Schickler to be barred. Miss Baker won second prize, three golf balls, both prizes being presented during the evening's social. Edward F. Carpenter made the presentation speech.

At the conclusion of the contests, supper was served by the lady members of the club, Mesdames F. E. Fifield, J. P. Baker, W. A. Jackson and F. C. Grant being in charge. In the neighborhood of one hundred and fifty people were served with delicacies of the season. The proceeds were for the purpose of buying new silver for the club house dining room and were sufficient for that purpose.

After supper a delightful musical program was listened to by the happy company. Leo Lange and Roy Carter rendered several violin and piano duets, which delighted the hearers. Mrs. H. G. Carter and Roy Carter favored the audience with a vocal duet and the applause was a liberal one. Roy Carter responded with a well rendered baritone solo. Miss Elizabeth Abbott delighted the company with a vocal solo, which was well received. Dancing was also one of the features of the evening, the inspiration for which was furnished by Messrs. Lang and Carter and many of the merry party glided over the floor in waltzes and two steps.

## GOLFERS GO TO OCONOMOWOC

At 7 o'clock tomorrow morning twelve mighty chiefs of the Siniissippi Golf tribe, in full war paint, will board the outgoing train for Oconomowoc. The object of their visit is to meet the Kenosha red men in one final battle for supremacy, on neutral ground. Each side has won once, the first battle at Kenosha, resulting in a loss to the Siniissippi of six scalps, while Kenosha's visit to the home grounds resulted in terrible slaughter, forty scalps to the credit of the tribe on "the banks of the Rock."

The English names of the Siniissippi are Albert Schaller, Charles Schaller, F. E. Fifield, C. P. McLean, H. H. McKinney, J. P. Baker, Fred Baker, F. C. Echlin, J. C. Wilmarth, H. G. Carter, J. F. Hall and C. E. Dunn. Quite a delegation will go with the "braves."

## MR. BELDING FISHED UP SALT

But Strange to Say Not a Pound Was Saved.

Charles H. Belding, the implement dealer, whose stock of salt and some pieces of farm machinery went to the bottom of the race last Monday, when the Lowell building on North River street collapsed, will not realize much on the salt that spent a couple of days in the water.

E. T. Fish has been busy fishing up the "watered stock," but to their surprise not a pound of salt can be found. Although the heads of the barrels are intact and everything seemed safe and sound, the salt had turned to water. Even some table salt in small bags enclosed in some of the barrels was found to be a minus quantity, and when the sacks were brought up the water ran away and the diluted salt with it.

Most of the farming implements will be recovered without damage, but the salt is a total loss.

## BUSY DAY IN THE MUNICIPAL COURT

CASE OF DAILEY AGAINST FITZ-  
GIBBONS COMES UP.

Involving Ownership of Winter Rye—  
Adjournment Taken Until Monday.  
September 25—Three Collins Children Sent to the Sparta School—  
Cook vs. Lane Case Deferred.

Two cases were called before Judge Fifield of the municipal court this morning. The first was the replevin action of Edward Daily against P. H. Fitzgibbons, involving the ownership of some forty-five acres of winter rye. Mr. Fitzgibbons resides on a farm just outside the city of Beloit, and during the season of 1898 the farm was worked on shares by P. H. Garry. Among the crops sown was the rye in question. Landlord and tenant evidently did not agree, for Garry was ordered to leave the place early in the present year. Before going, however, he executed a chattel mortgage in favor of Edward Daily, the plaintiff in this action on undivided one-half of the 45 acres. He filed it with the town clerk of Beloit, February 11, 1899.

All went well until the crop was harvested and Daily presented his claims, which Fitzgibbons refused, compelling Daily to replevin. Defendant in his answer sets up that his mortgage was without consideration, and therefore void; and alleges a special claim and lien to the amount of \$200 for taking care of the rye and \$31.49 for seed furnished when the crop was planted.

After failure on the part of the defendant to get a change of venue, an adjournment was taken until Monday, September 25, at 2 p. m., when a jury will be drawn.

The plaintiff was represented by J. J. Cunningham while the interests of the defendant were looked after by J. L. Mahoney of this city, and Con. Buckley of Beloit.

The case of Frank C. Cook against Wilson Lane was adjourned to October 16th at 9 a. m., owing to the absence of the defendant from the city.

Maggie and Julia Collins, daughters of Hugh Collins, were committed to the state school at Sparta this morning by Judge Sale.

The girls are eleven and eight years of age respectively and have had only a shiftless father to provide for them until Poormaster S. B. Kenyon took them in charge.

The preliminary examination of Edward Cole of Evansville, charged with stealing a bicycle at the Cut Off City last July and selling the same to John McCus of this city, took place at Evansville yesterday, and Cole was held for trial and the case will come up in the municipal court next Monday. District Attorney Jackson appears for the state and C. E. Pierce for the defendant.

Ideal Milk Stands All Tests

The point brought up at a "Council" meeting some little time since, regarding the inspection of city milk, would, if enforced, find Ideal Aerated Jersey Milk ready for any test. It is cooled and bottled in the most approved manner, bottles are scalded and thoroughly rinsed and each bottle fitted with clean, new, wood pulp corks. It will keep well and is perfectly pure. When cream forms on milk and becomes stringy it is impure. Ideal Milk forms perfect cream.

Is the Coffee.

This Blend is the new one that is making such rapid progress with Coffee drinkers about the city - taken hold much like wild fire, and is creating an impression that will be lasting.

There is Only One Borneo in  
The City.

Only one place you can secure it. The Blend is known to us only, in Janesville. The name is our own production. Borneo Blend is composed of Coffees used extensively by the largest roasters in the country. The flavors are delicate and the combination one that cannot be surpassed. Around the country, and even here in this city, Coffees of this grade and worth sell at 30c the pound. Our price

22c Per Lb.

An examination of the Coffee and a test of the drinking qualities will convince you that Borneo should always be found in your home.
